

Tyrannosaurus rex

Name _____

Say it: tie-RAN-oh-SORE-us rex

It could eat up to 230 kilograms of meat and bones in one bite!

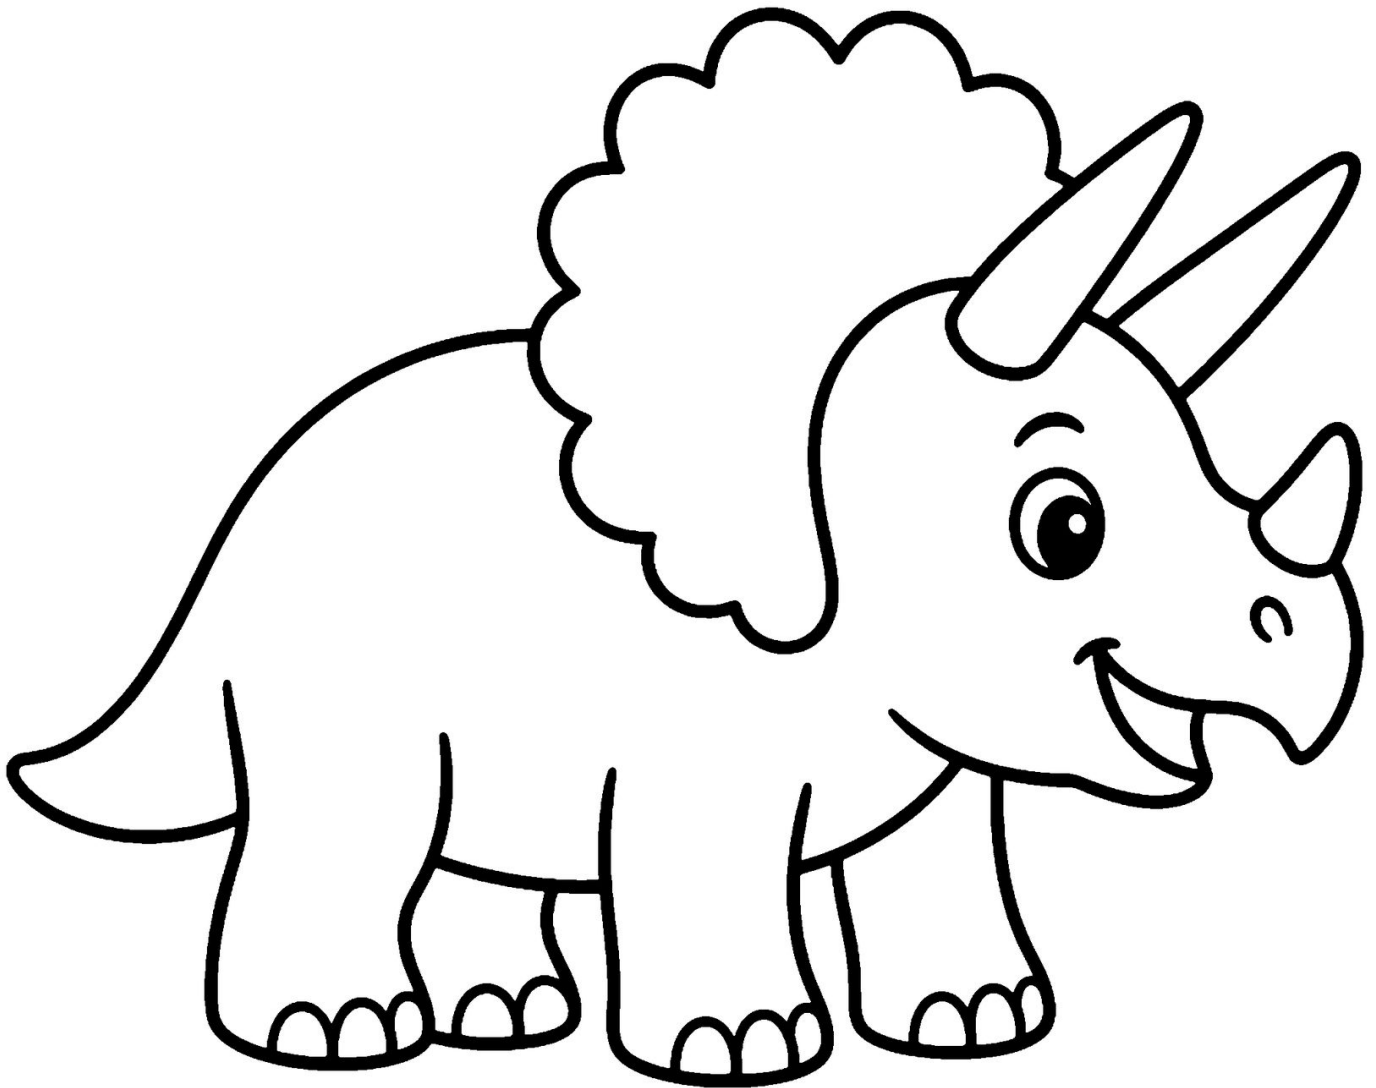

Triceratops

Name _____

Say it: try-SERR-a-tops

A nose horn sharp enough to cut wood? Probably! And a head the size of a small car.

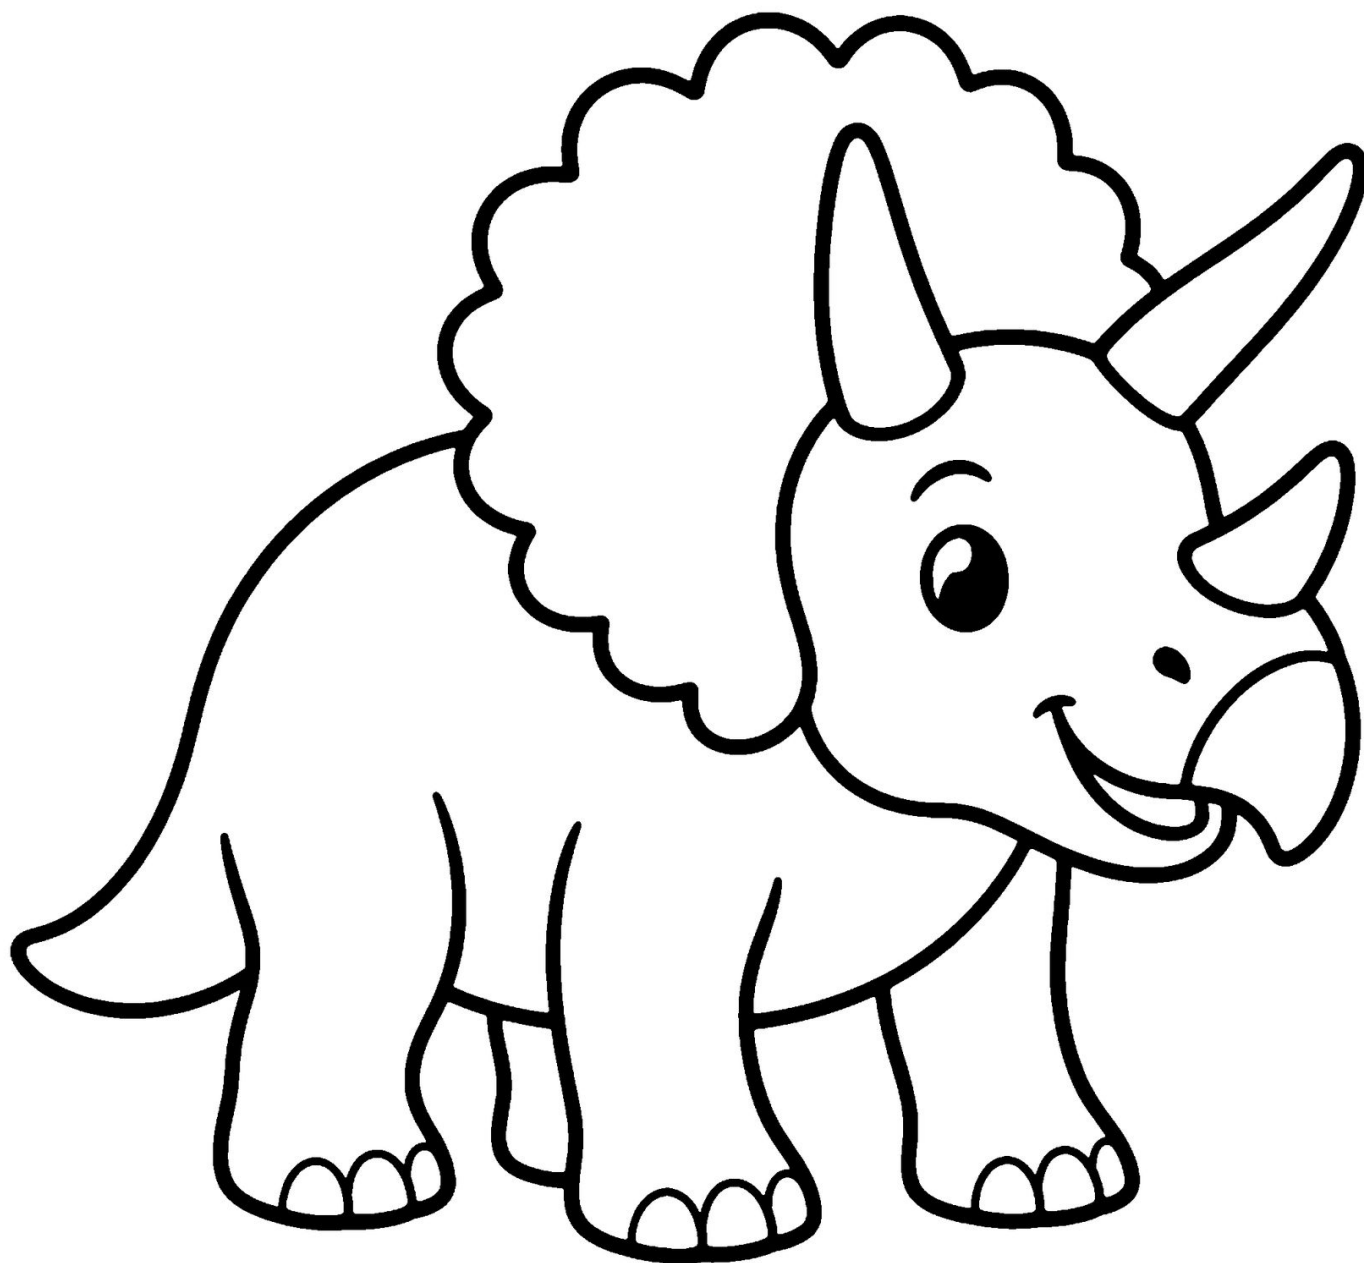

Triceratops up close

Name _____

Say it: try-SERR-a-tops

Count the horns: two long ones over the eyes and a short one on the nose.

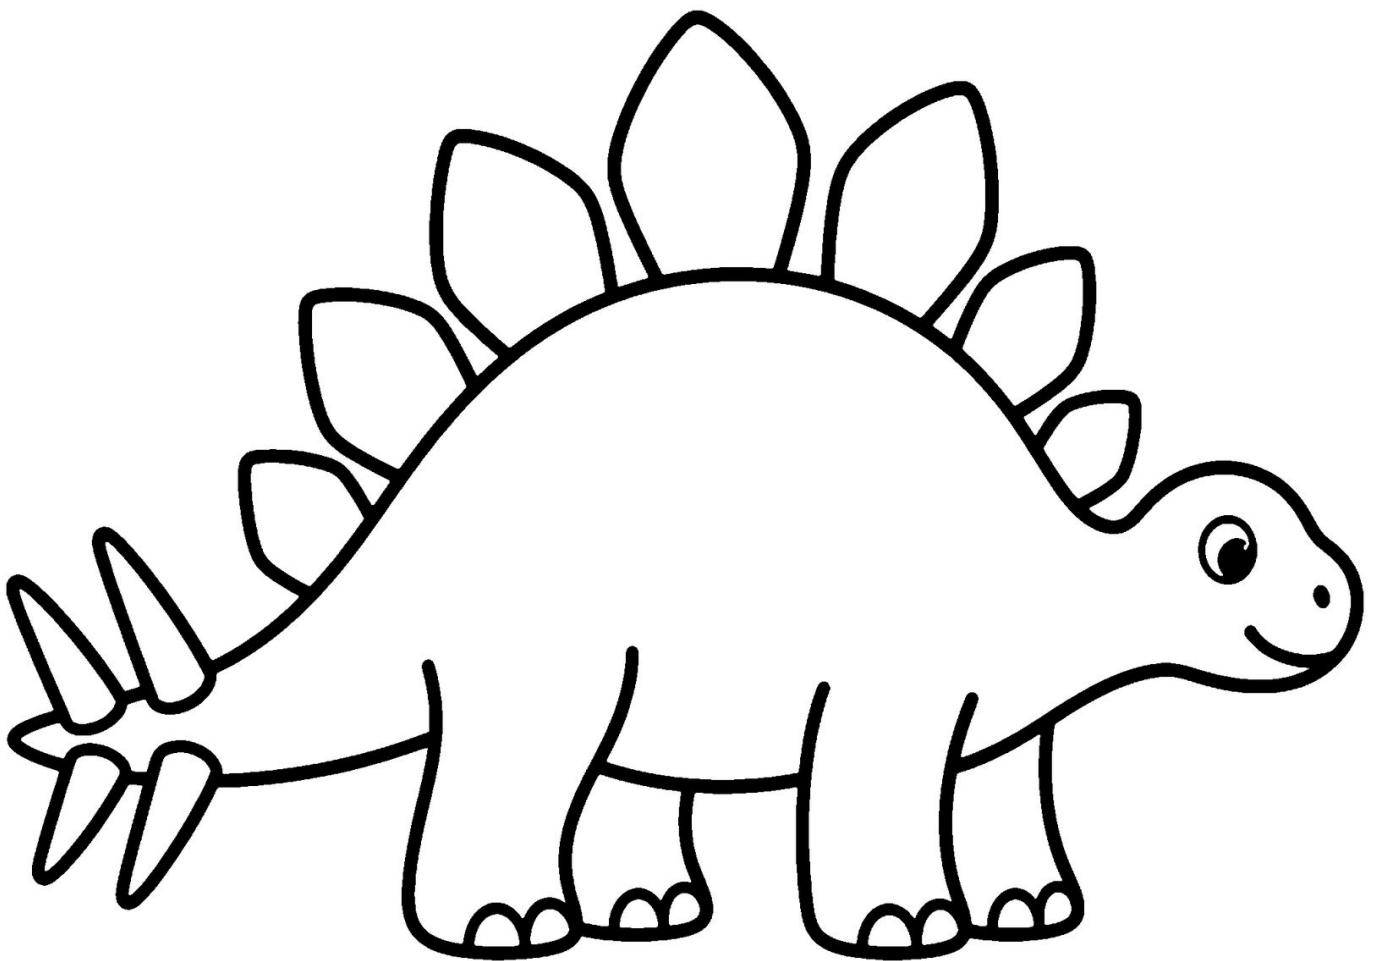

Stegosaurus

Name _____

Say it: STEG-oh-SORE-us

A big, spiky dinosaur with a tiny head, like a walnut.

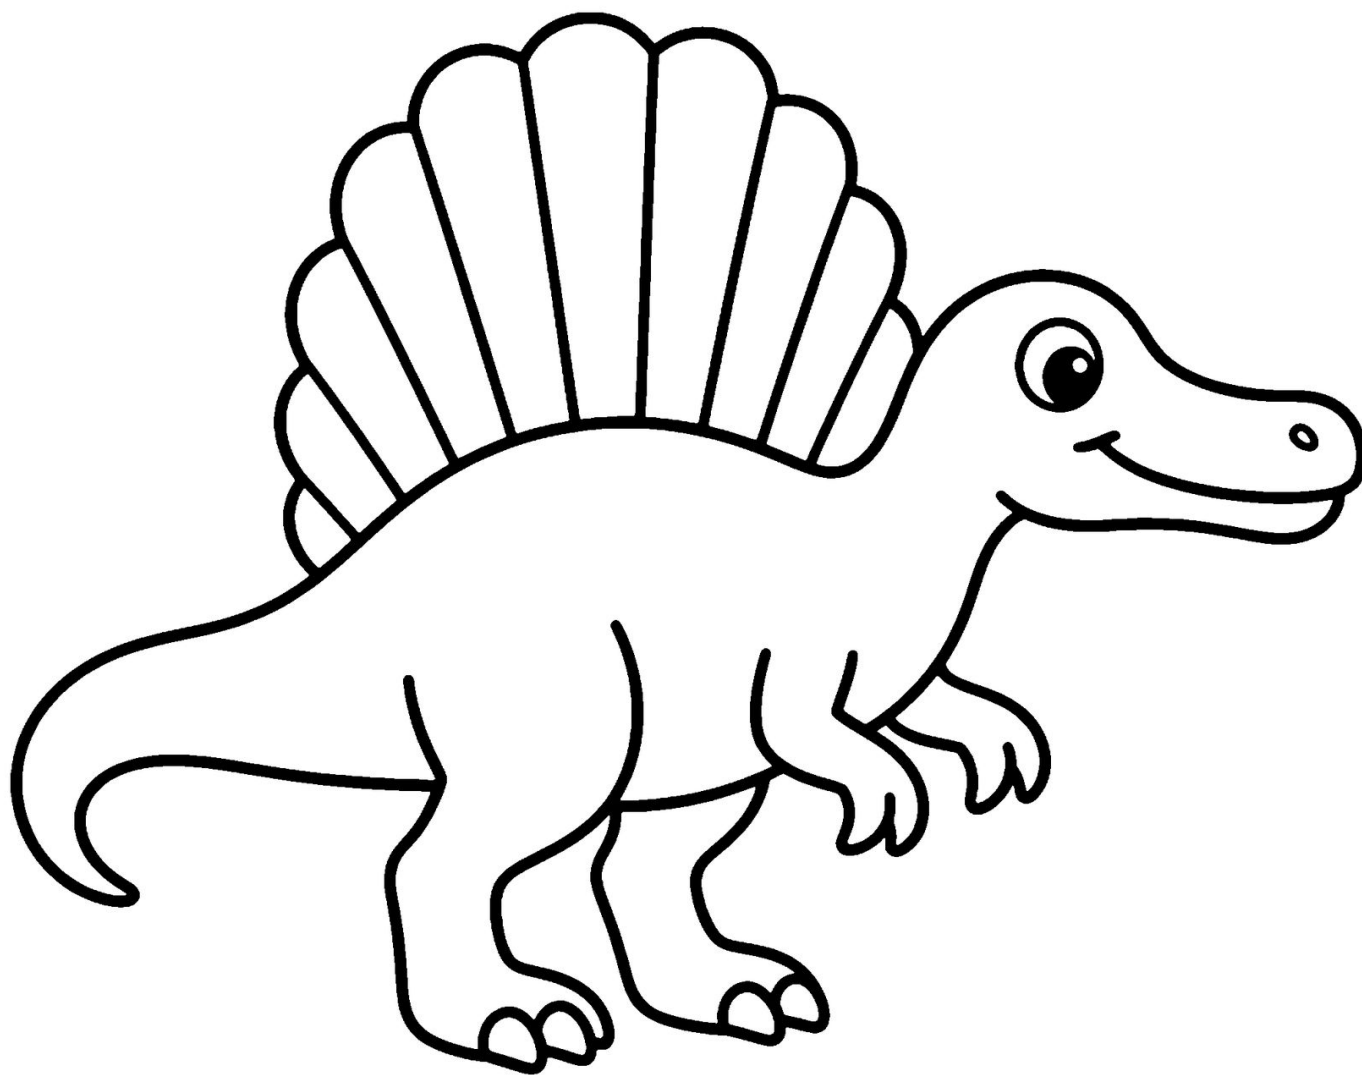

Spinosaurus

Name _____

Say it: SPINE-oh-SORE-us

Even bigger than T. rex, and it could swim like a crocodile!

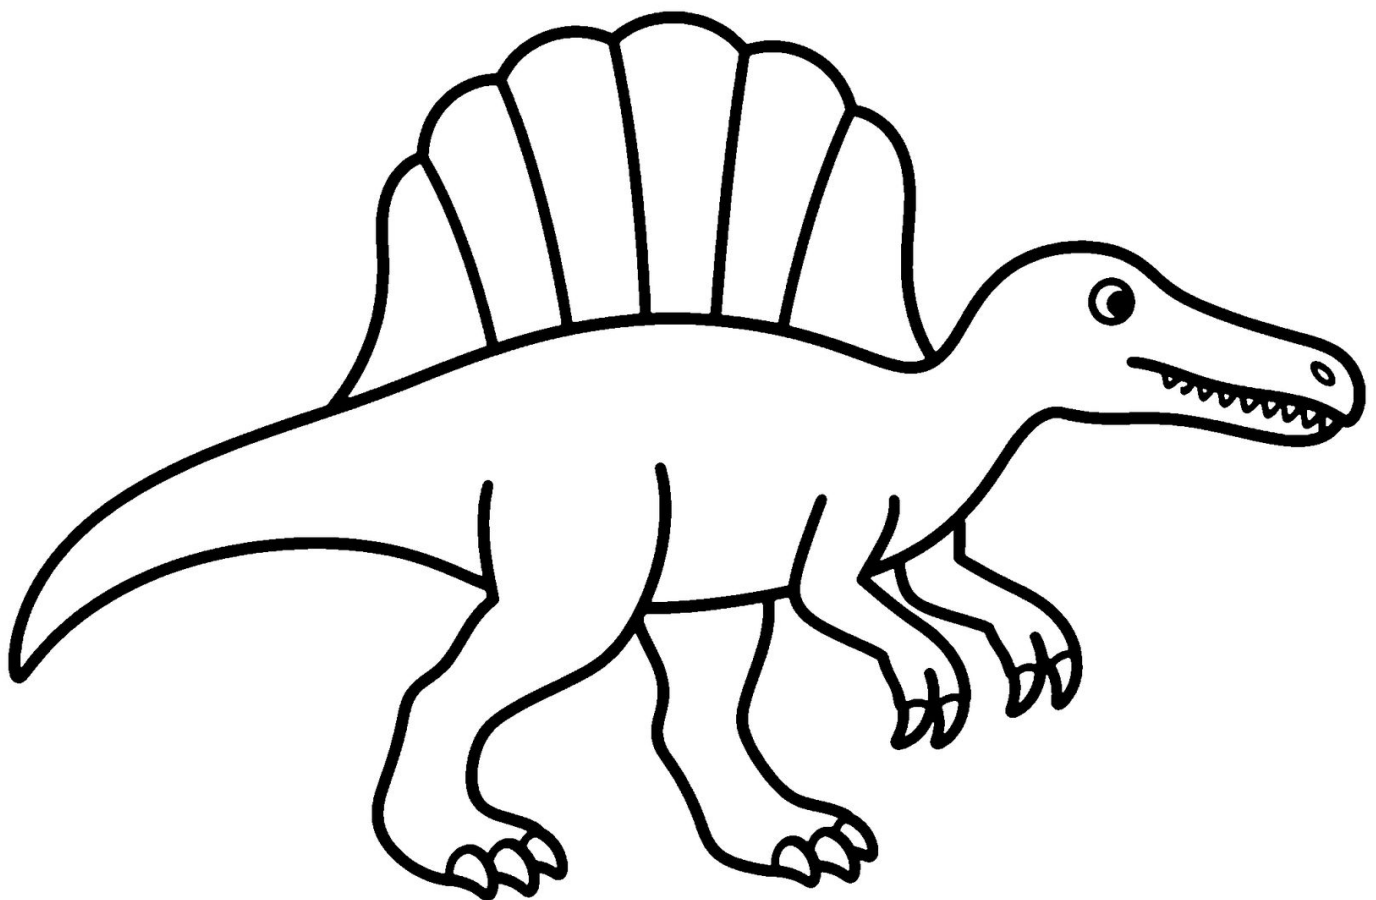

Spinosaurus on the move

Name _____

Say it: SPINE-oh-SORE-us

That tall sail on its back is a row of long bones covered in skin. Make it bright!

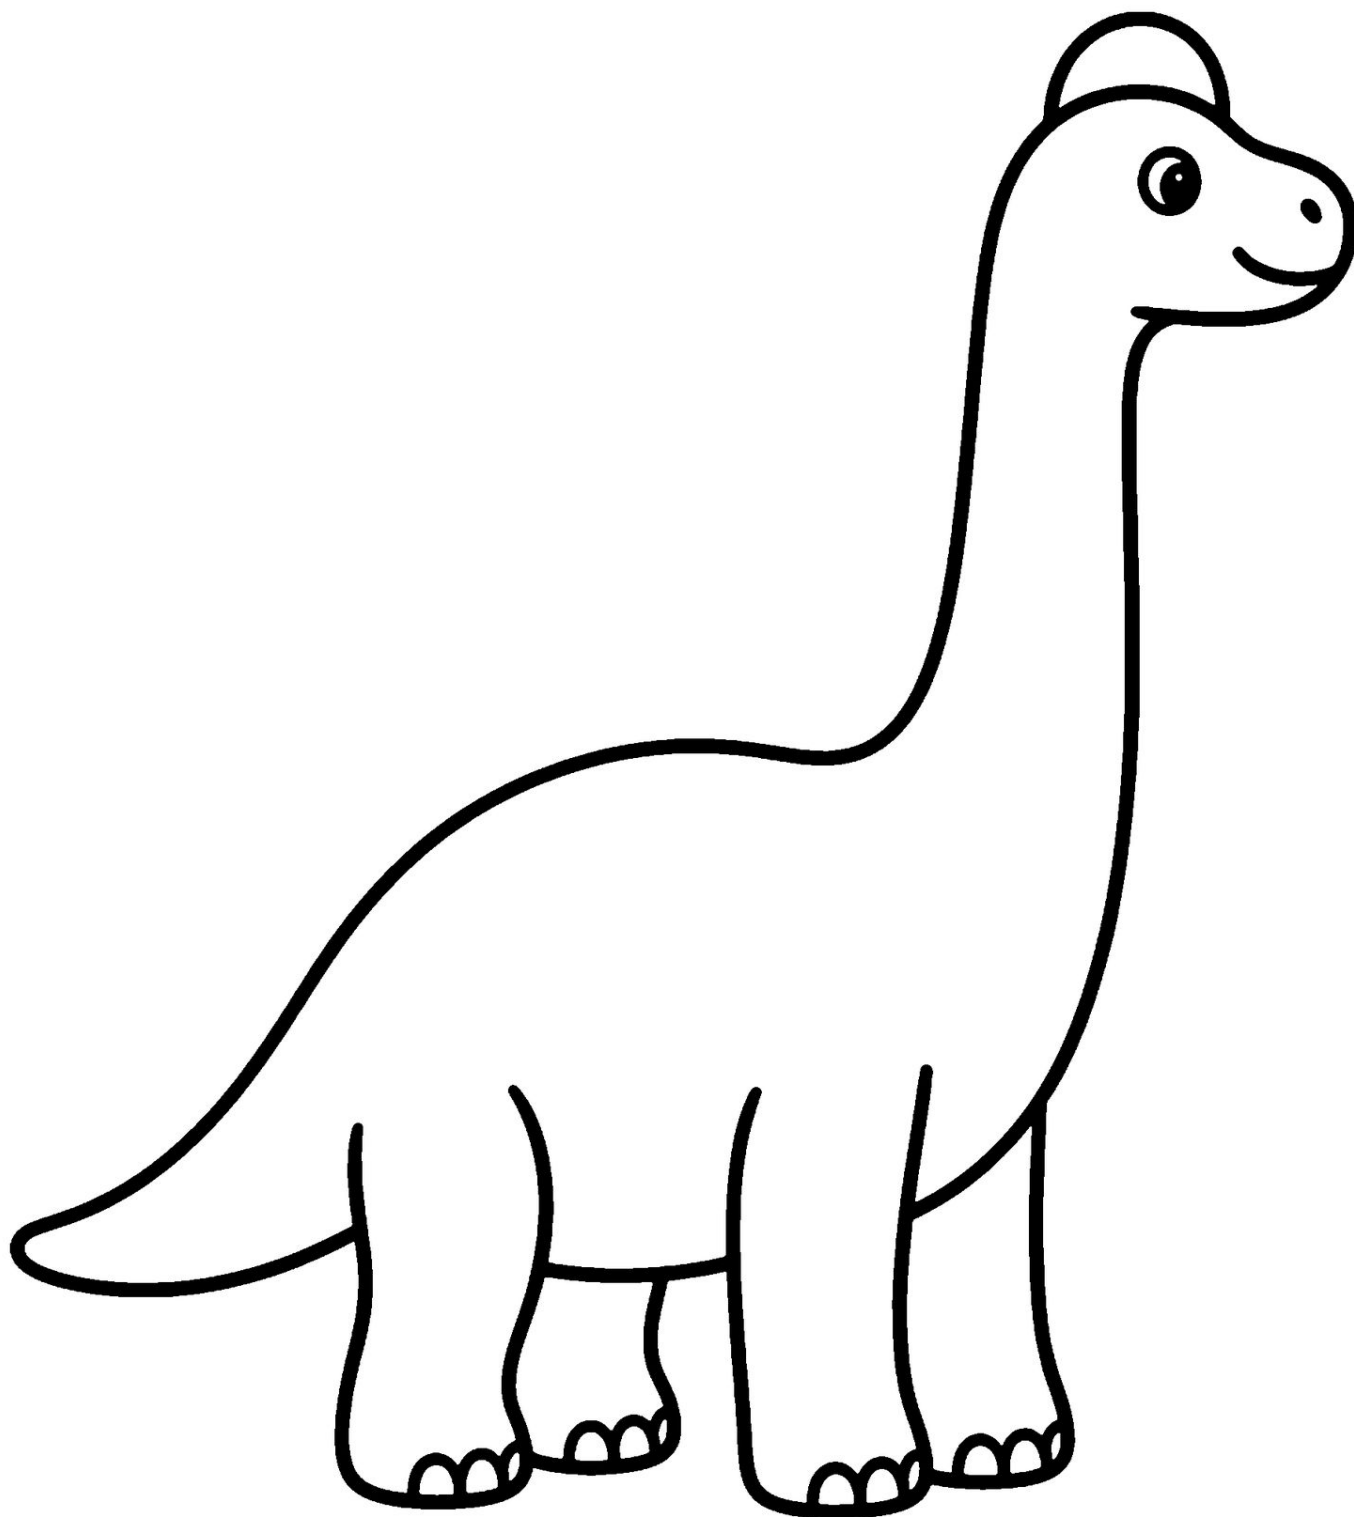

Brachiosaurus

Name _____

Say it: BRAK-ee-oh-SORE-us

Up to 400 kilograms of plants a day, with only 50 teeth or less!

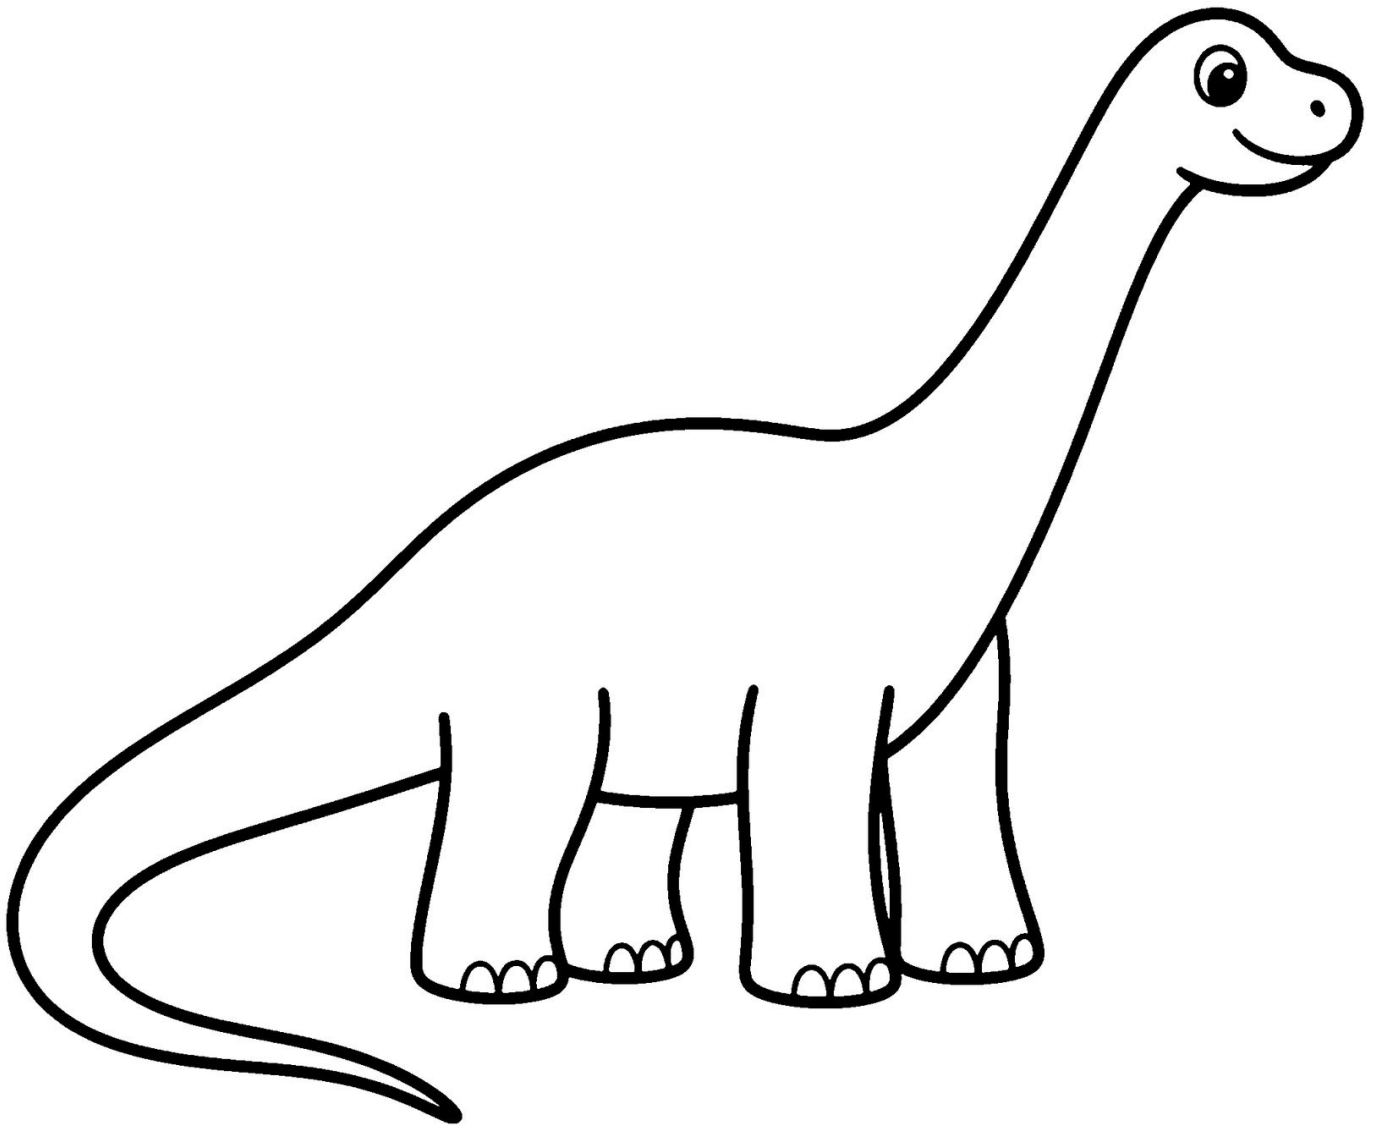

Apatosaurus

Name _____

Say it: ah-PAT-oh-SORE-us

Up to 23 meters long. And no, it isn't a Brontosaurus.

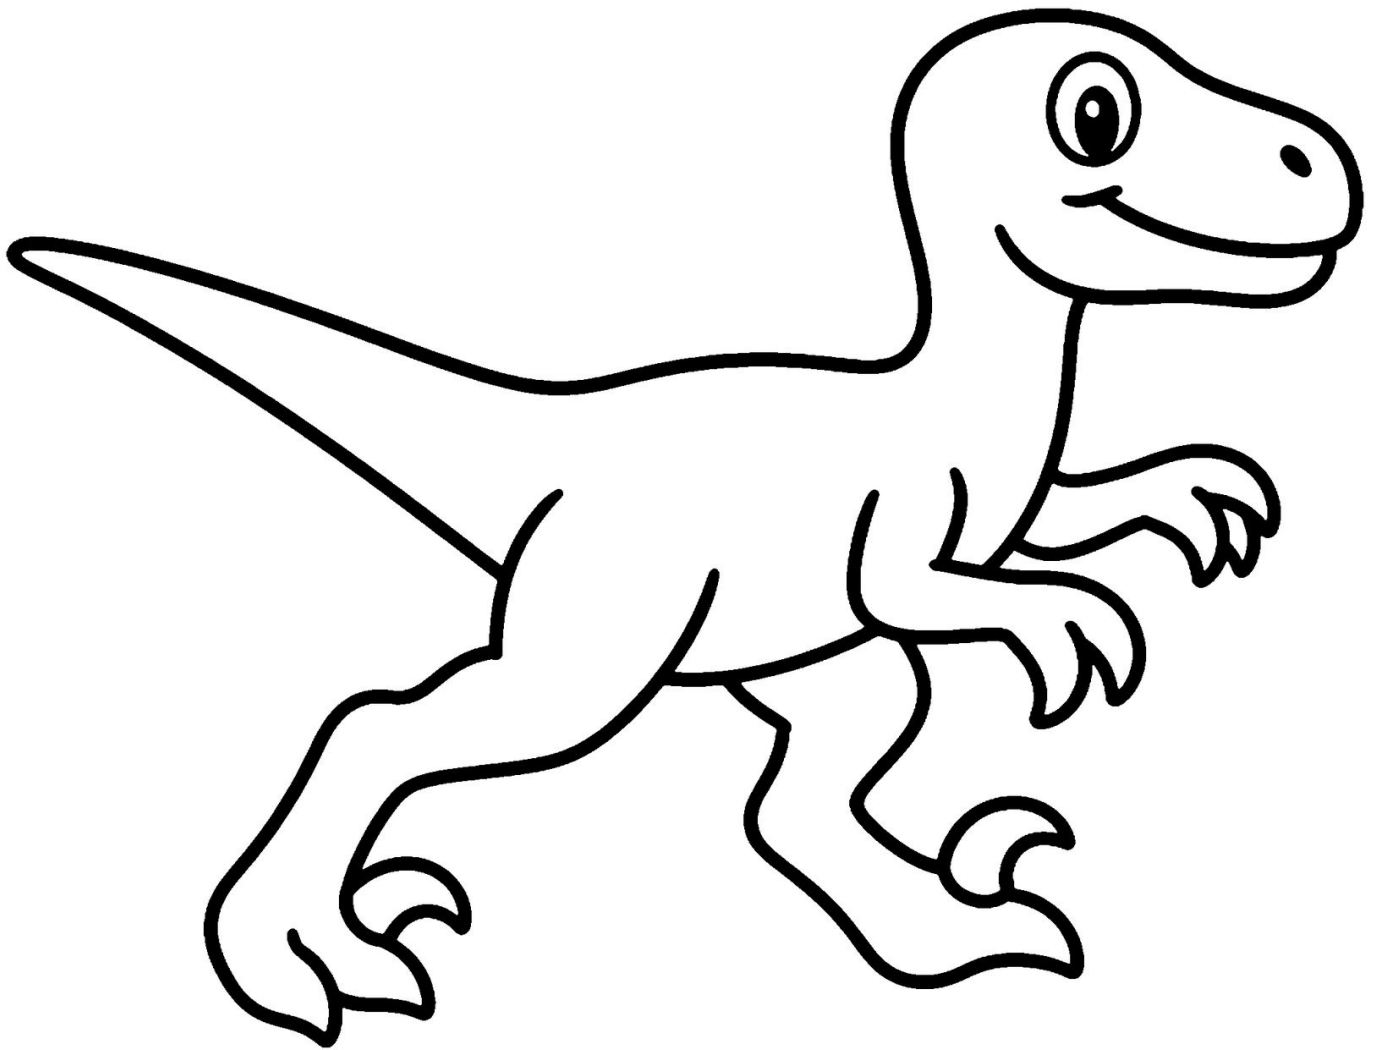

Velociraptor

Name _____

Say it: vel-OSS-ee-rap-tor

It had feathers! Draw some on its arms, then color it in.

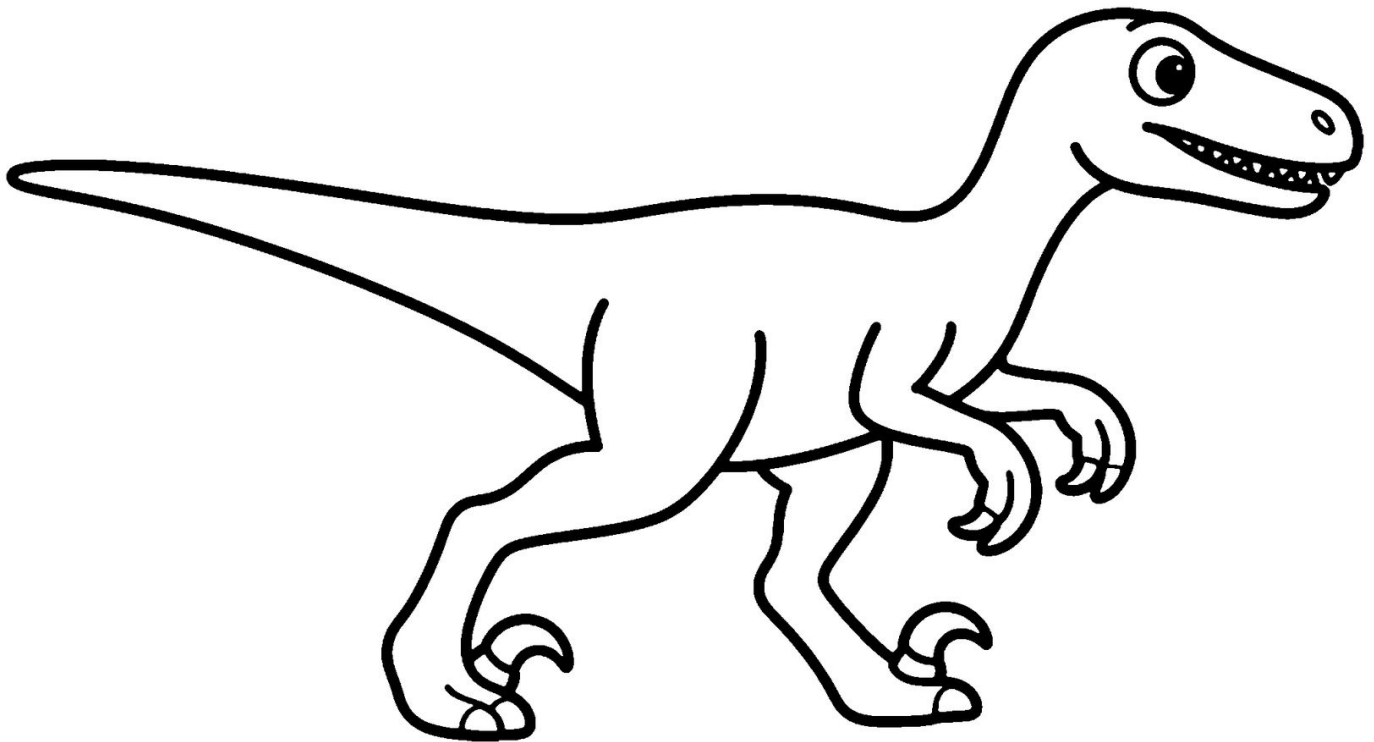

Velociraptor running

Name _____

Say it: vel-OSS-ee-rap-tor

Small, like a big turkey, but very fast!

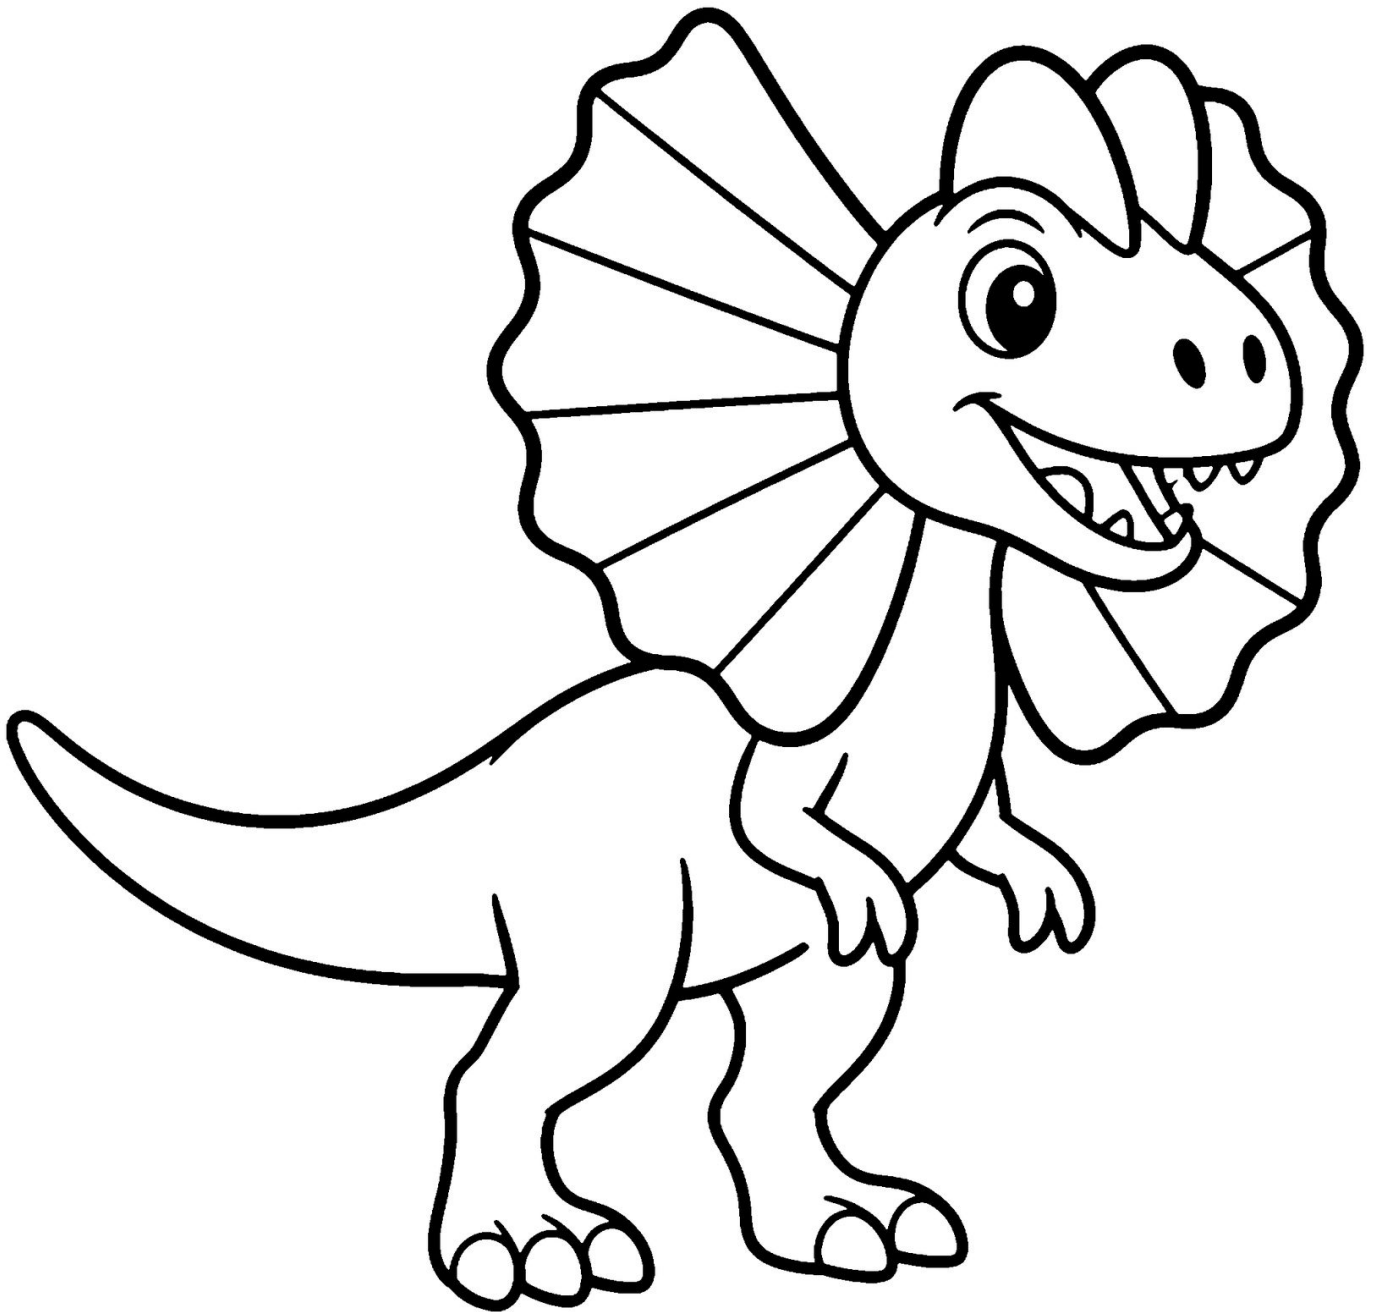

Dilophosaurus

Name _____

Say it: die-LOAF-oh-SORE-us

Poisonous? Some people think so, but there's no evidence for that.

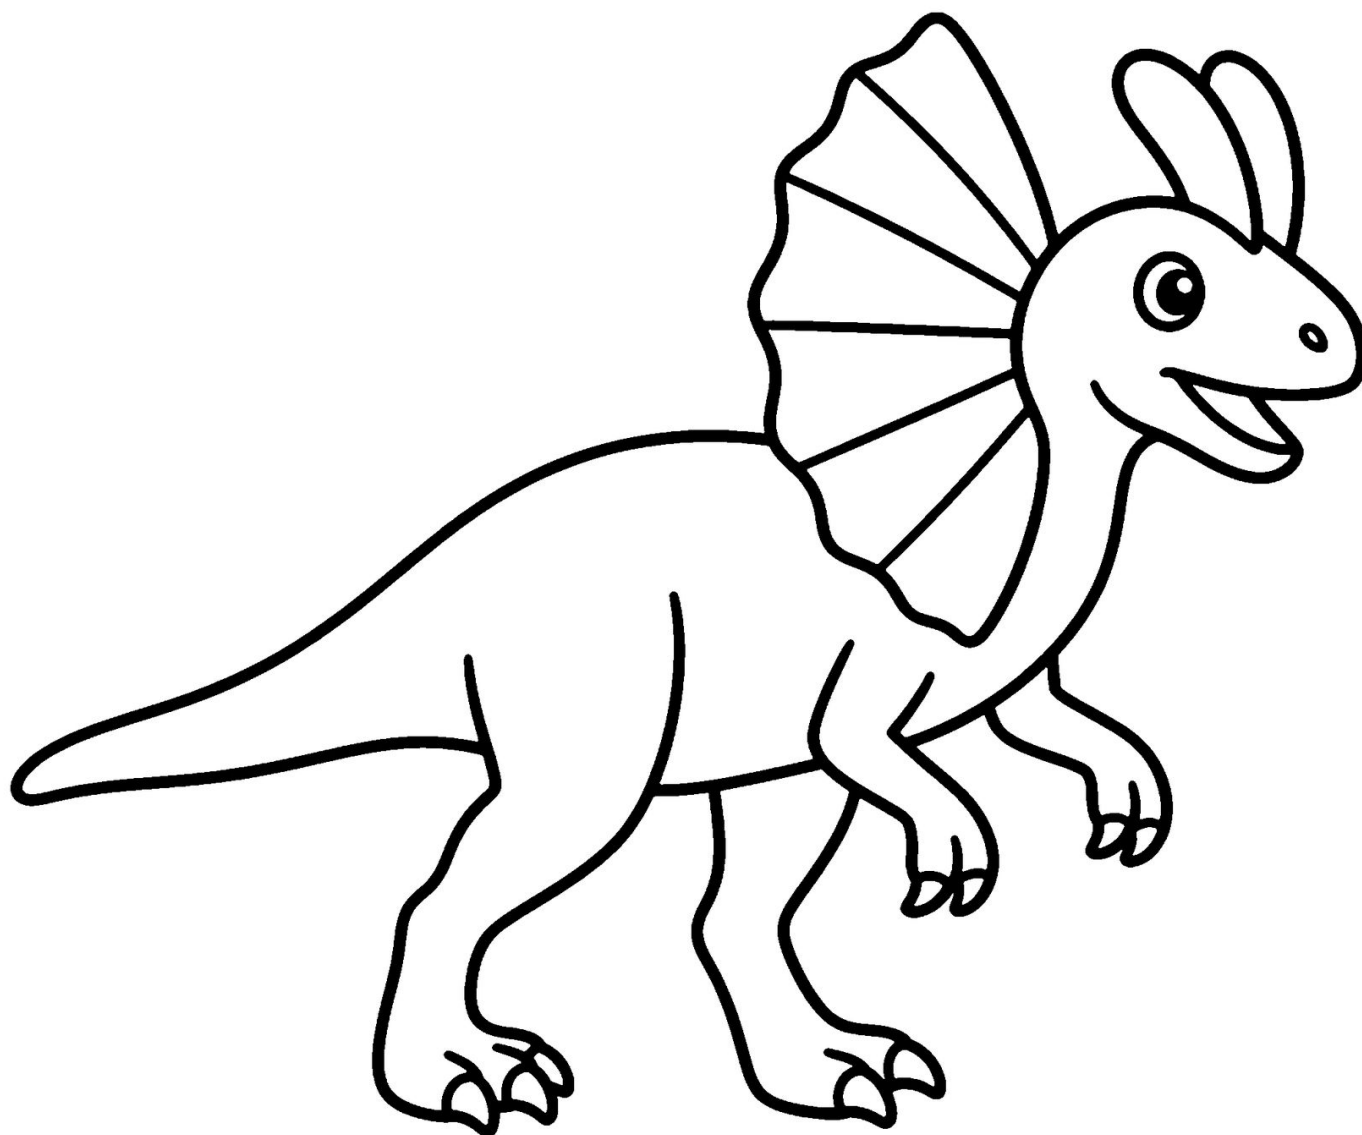

Dilophosaurus walking

Name _____

Say it: die-LOAF-oh-SORE-us

Two thin crests on its head gave it its name: two crested lizard.

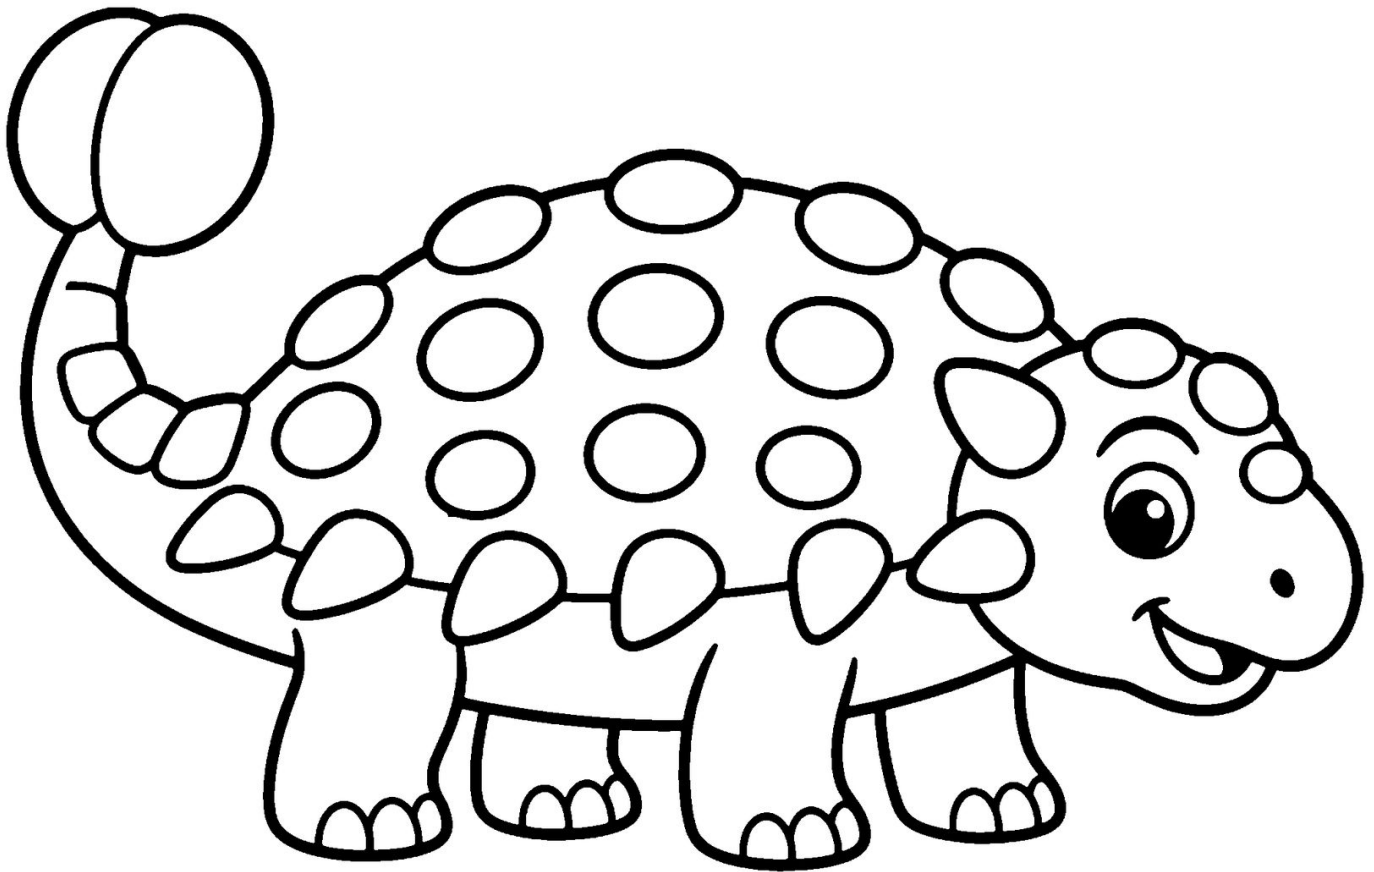

Ankylosaurus

Name _____

Say it: an-KYE-low-SORE-us

Armored like a knight, powerful as a tank, with a club on its tail.

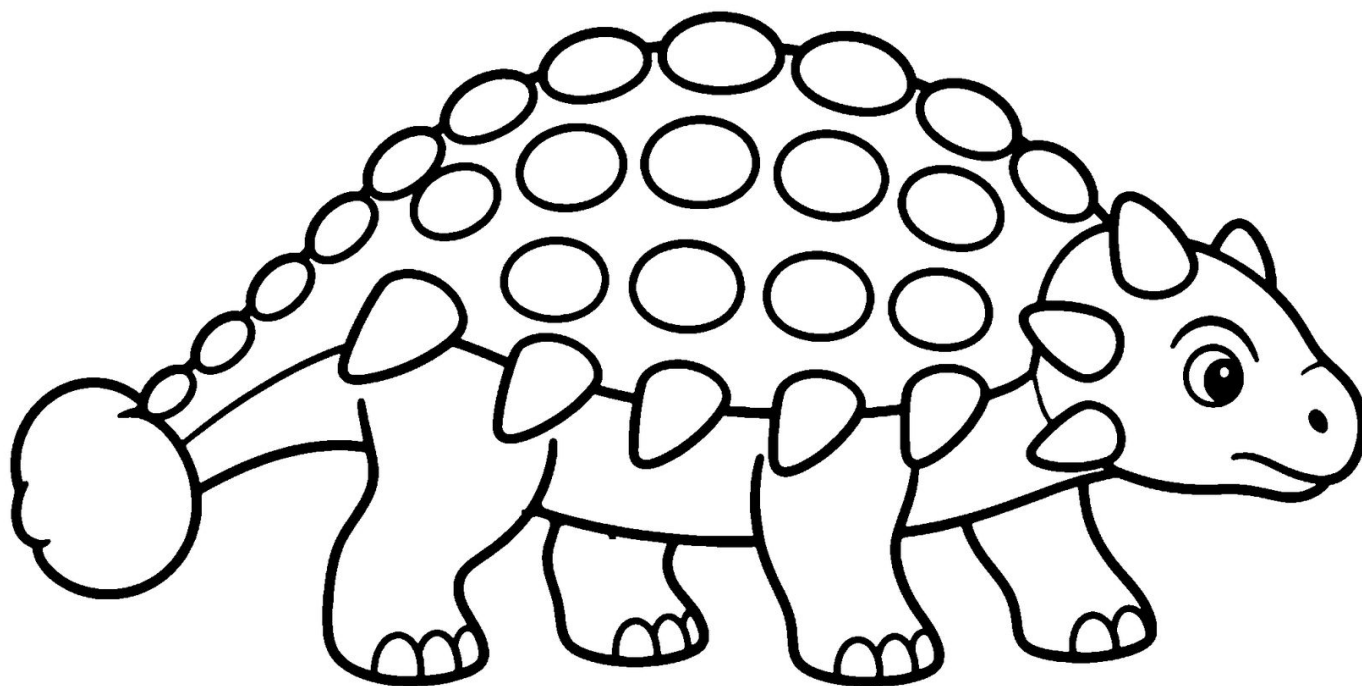

Ankylosaurus on the move

Name _____

Say it: an-KYE-low-SORE-us

Lots of round armor plates to color: one color each, or a pattern?

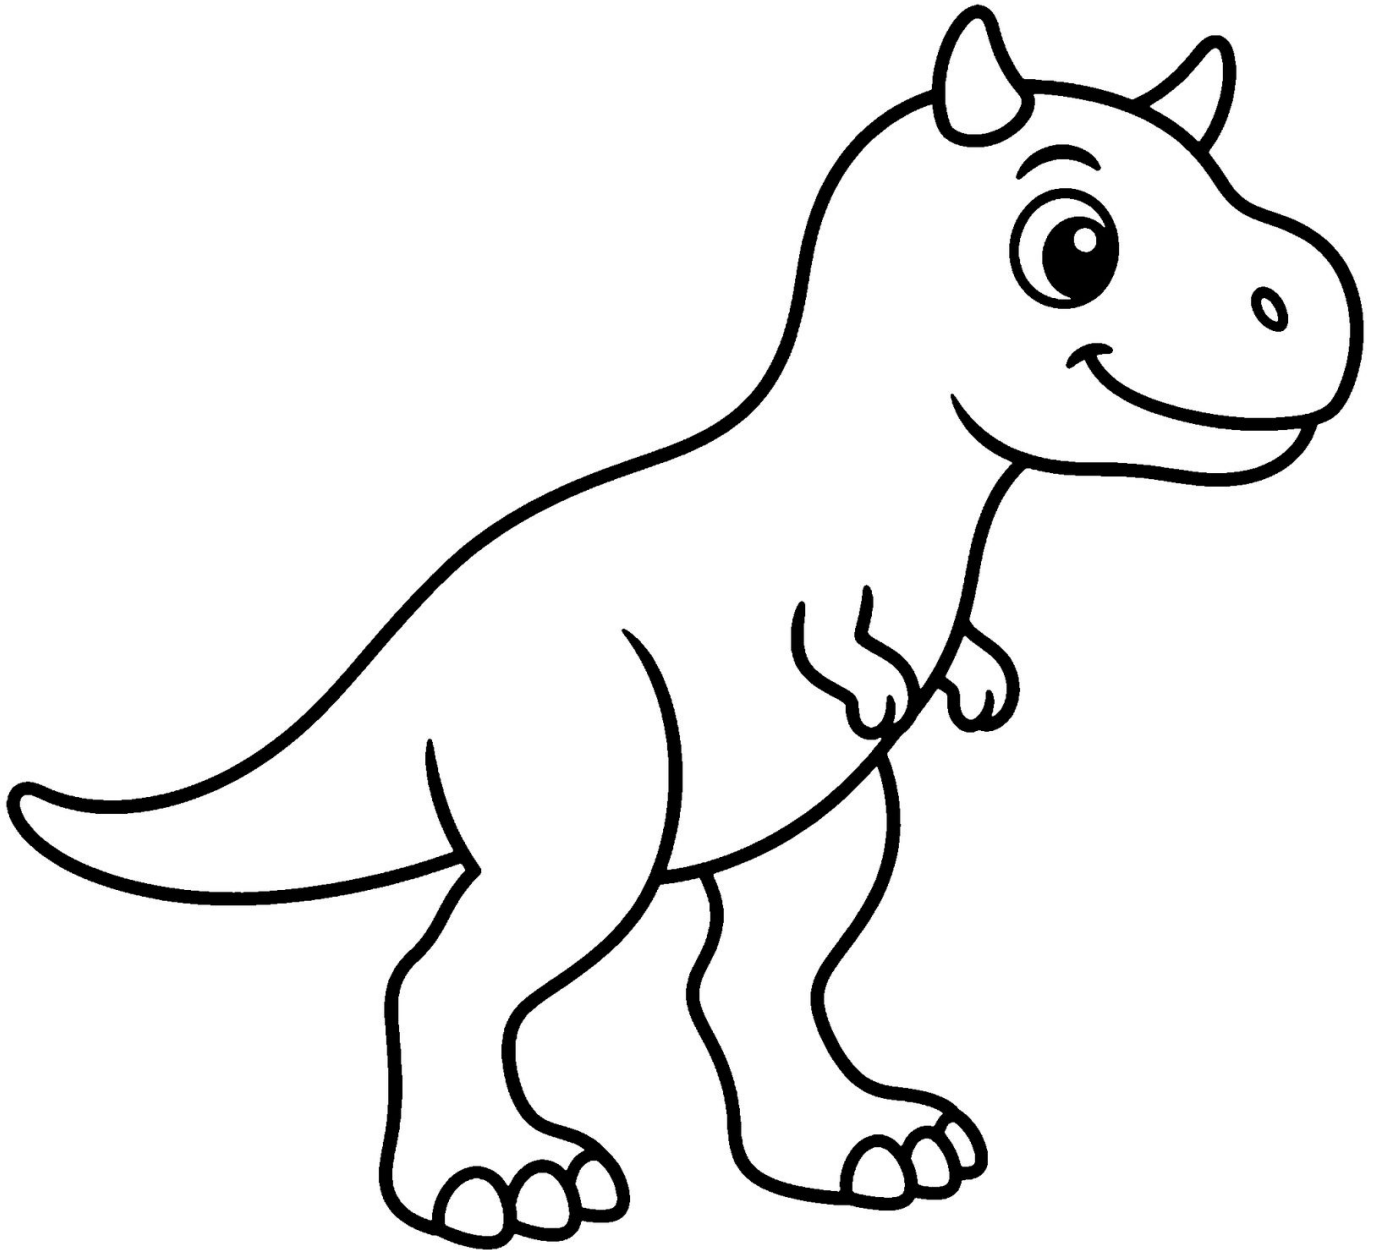

Carnotaurus

Name _____

Say it: kar-noh-TORE-us

One of the fastest dinosaurs, with remarkably short arms.

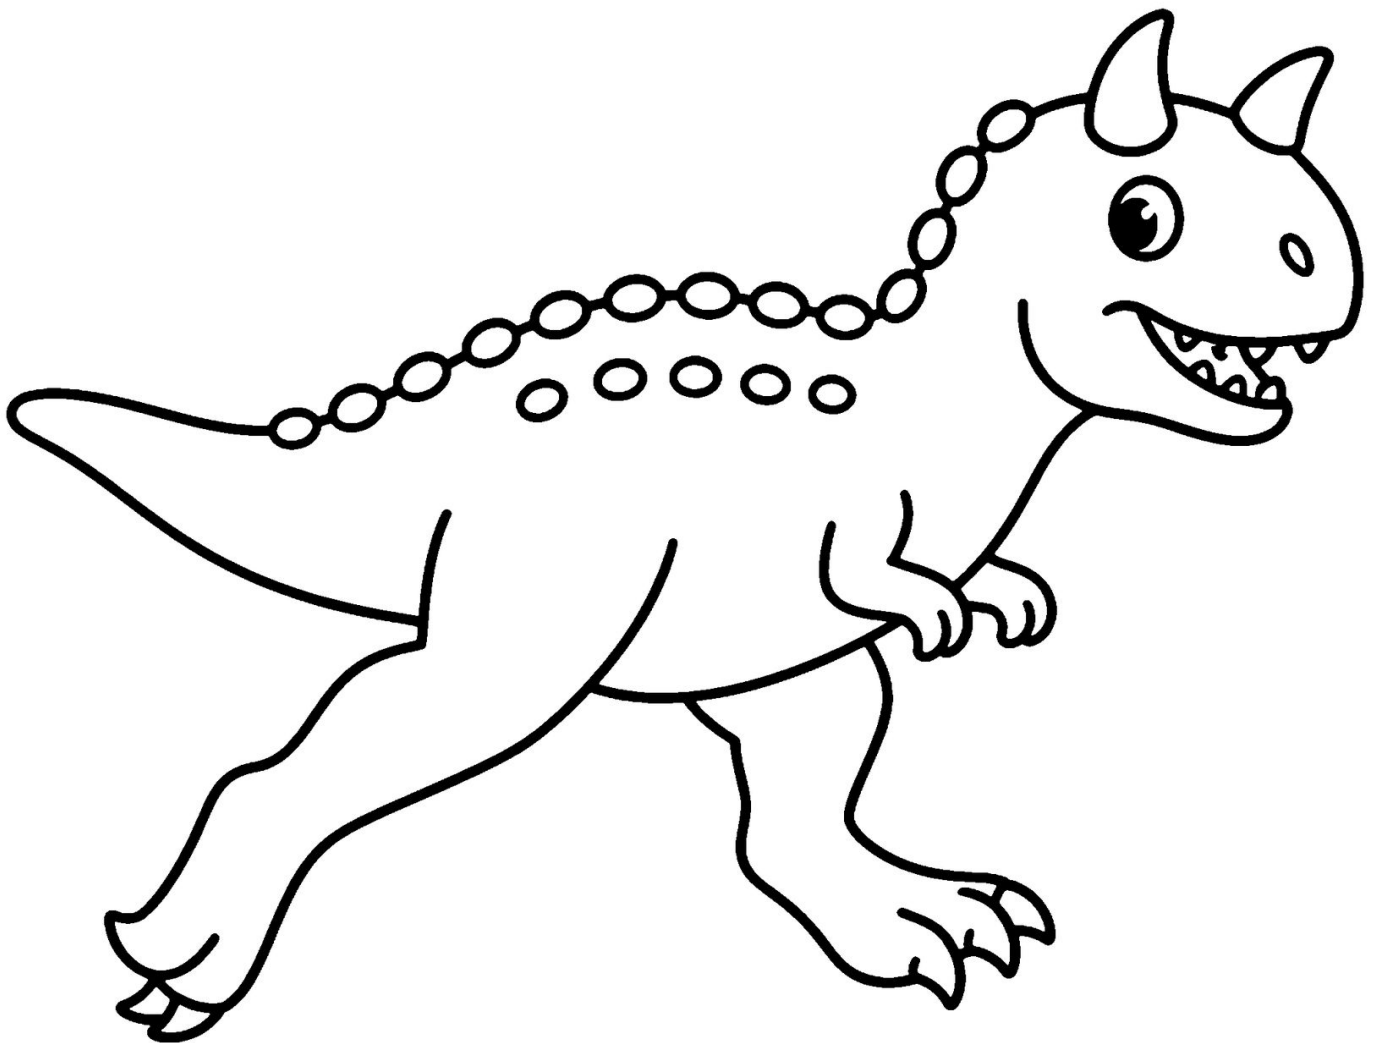

Carnotaurus running

Name _____

Say it: kar-noh-TORE-us

Two horns like a bull: its name means meat-eating bull.

A baby dinosaur hatching

Name _____

Every dinosaur started life in an egg. What will you call this one?

Two babies in a nest

Name _____

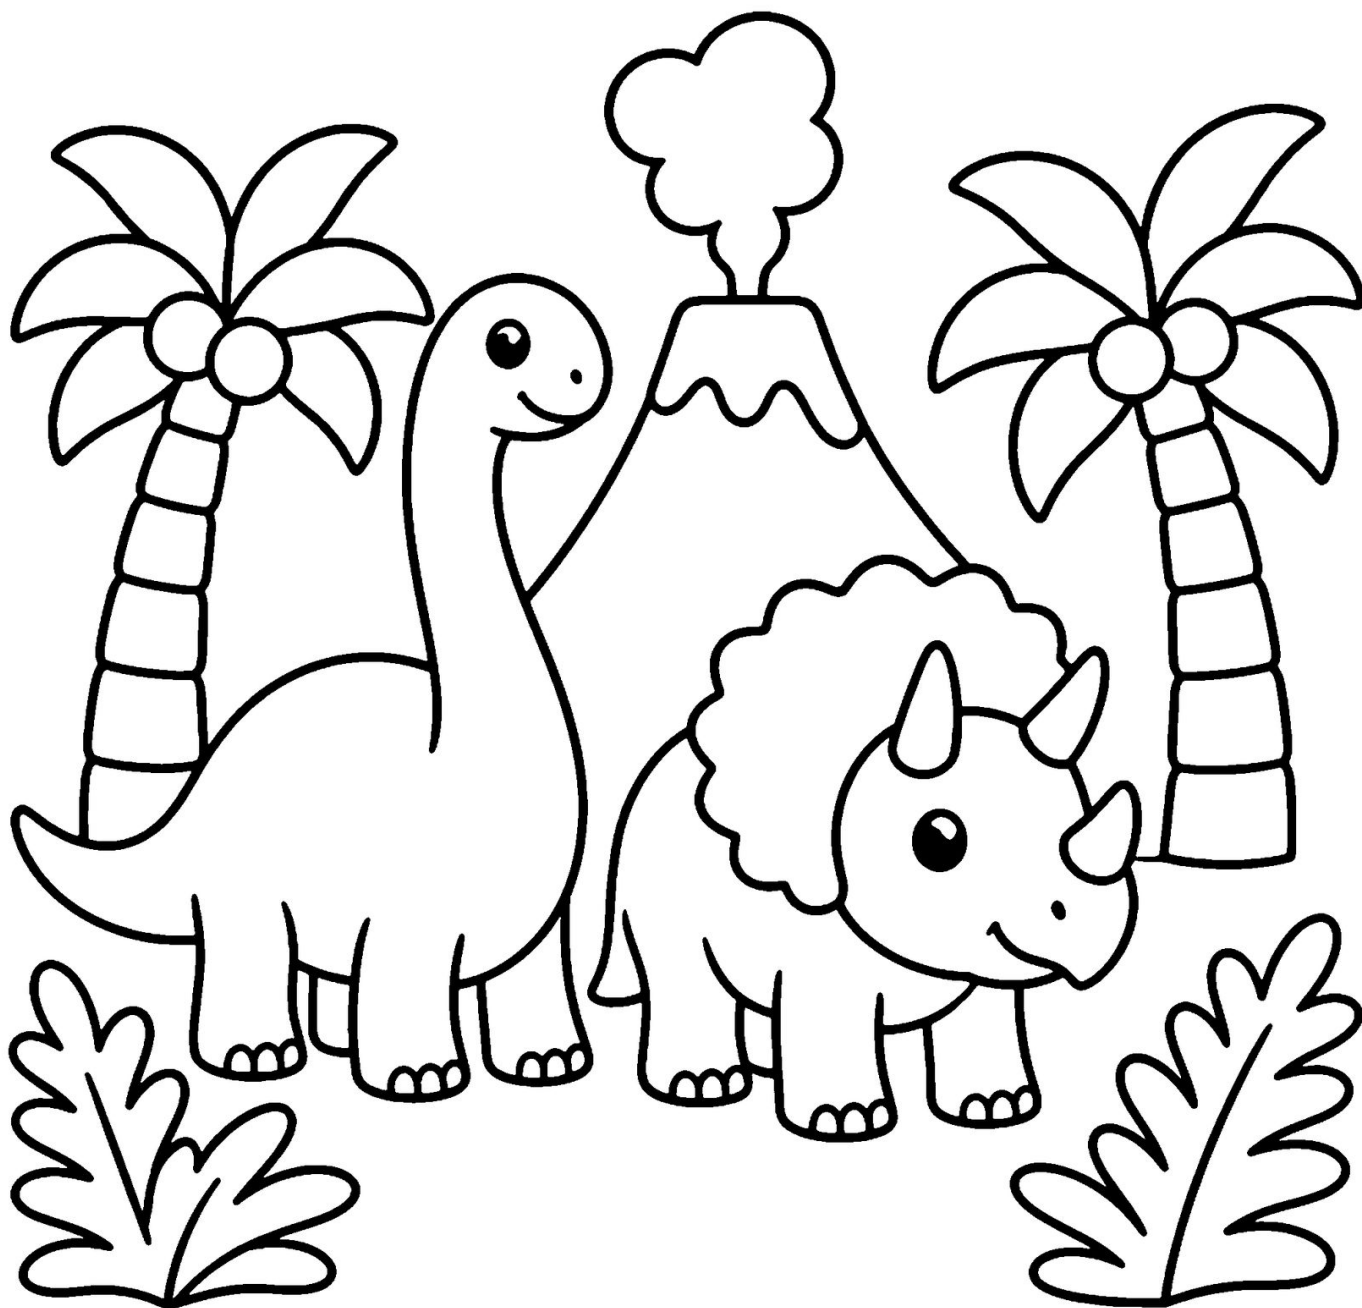

Two baby dinosaurs hatching side by side. Which one came out first?

Dinosaurs by the volcano

Name _____

A long neck and a Triceratops, a smoking volcano and two palm trees: a whole world to color.

A mother and her baby

Name _____

A long-necked mother and her baby walk past a little volcano. Color the sun too.
