

# How to draw a hot air balloon

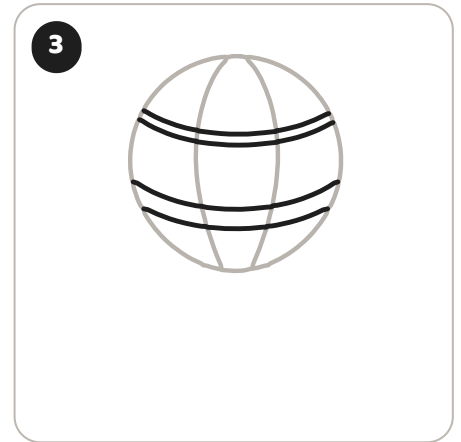

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a hot air balloon! First, a big round circle.

Now two curvy lines from the top to the bottom.

Now two stripes across the balloon, like two pretty ribbons.

Now the ropes going down, and a little basket at the end.

Last, a candy cane hanging on the basket. Up, up, and away!

YOUR TURN

# My hot air balloon

Draw it here, then color it in.
