

How to draw a hot air balloon

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw Santa's hot air balloon! First, the big balloon, down to the basket.

Now three long curved lines from the top of the balloon to the bottom.

Now a wavy band across the top, with two wavy lines.

Now a second wavy band across the middle.

Now a smaller wavy band near the bottom, and a line across the neck.

Now the basket: a rim, ropes, and a woven pattern.

Last, a candy cane hooked on the basket, with stripes. Up, up, and away!

YOUR TURN

My hot air balloon

Draw it here, then color it in.
