

How to draw an elf

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw Pocket the elf! First, a floppy hat with a brim.

Now his face and two pointy ears, then dot eyes and a smile.

Now a pom pom on the hat, and a cozy scarf around his neck.

Now his tunic, and two arms with round mittens.

Last, two legs and two big boots.
Hello, Pocket!

YOUR TURN

My elf

Draw it here, then color it in.
