

How to draw a gingerbread house

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a gingerbread house! First, the roof, with icing dripping off the edges.

Now a brick chimney on the roof, with a cap on top.

Now the walls under the roof, and a big icing plate underneath.

Now a round window with a cross, and an arched door with a knob.

Now candy cane posts at the corners, and two hooked canes by the door.

Now round gumdrops all along the roof edges.

Now little stripes across every candy cane.

Last, a few tiny sprinkles on the roof.
What a sweet house!

YOUR TURN

My gingerbread house

Draw it here, then color it in.

A large, empty rectangular box with rounded corners, intended for drawing a gingerbread house.
