

How to draw an ornament

One step at a time: the black lines are new, the gray ones you drew already.

1

Let's draw an ornament! First, a big round ball.

2

Now a little cap on top, with a loop to hang it.

3

Now a curved line across the top, and one across the bottom.

4

Last, a zigzag across the middle. So pretty!

YOUR TURN

My ornament

Draw it here, then color it in.
