

How to draw an ornament

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a fancy ornament! First, a big round ball.

Now a little cap on top, with ridges, and a thin stem above it.

Now a ribbon bow on the stem: two loops, a knot, and two tails.

Now two curved lines near the top, and two near the bottom.

Now a zigzag above the top lines, and one below the bottom lines.

Last, five little snowflakes across the middle. Sparkly!

YOUR TURN

My ornament

Draw it here, then color it in.
