

How to draw Santa's sleigh

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw Santa's sleigh! First, the big seat, tall at the back.

Now a long runner underneath, with a curl at the front.

Now four little legs to hold the sleigh on the runner.

Now a big round sack of presents sitting in the back.

Last, the sack's tied top, with little fold lines. Off we go!

YOUR TURN

My sleigh

Draw it here, then color it in.
