

How to draw a snowman

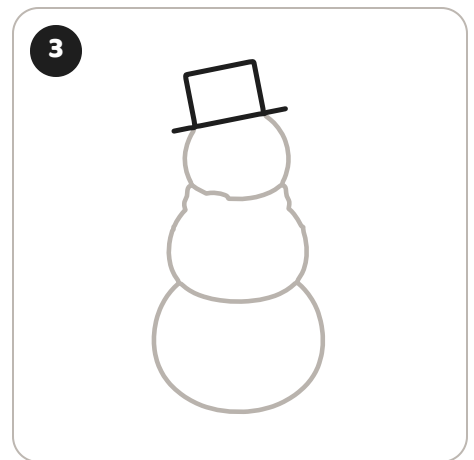

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a snowman! First, a round circle for his head.

Now a bigger circle for his tummy, and a huge one below!

Now a tall top hat, sitting right on his head.

Now a pointy carrot nose, and two little dots for his eyes.

Now a cozy scarf, and four buttons down his tummy.

Last, two stick arms reaching out wide. What a happy snowman!

YOUR TURN

My snowman

Draw it here, then color it in.
