

How to draw a snowman

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a snowman! First, a round circle for his head.

Now a top hat: a brim, a tall top, and a band.

Now two dot eyes, a carrot nose, and a smile of little dots.

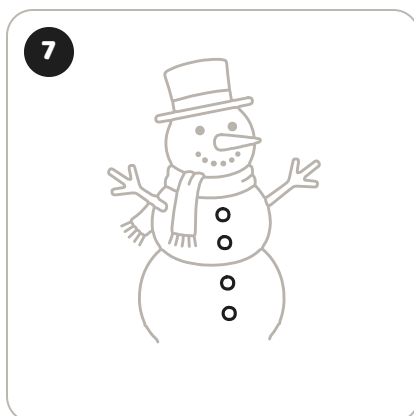

Now a round middle, and a bigger round bottom.

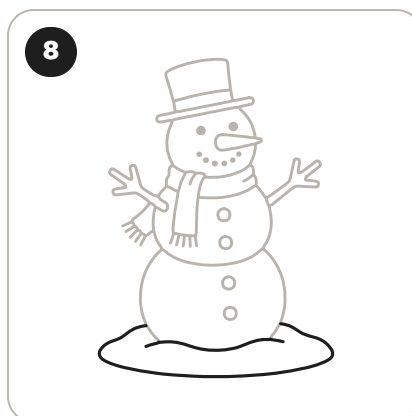

Now a cozy scarf around his neck, with a tail hanging down.

Now two stick arms, with twiggly fingers.

Now four round buttons down his front.

Last, a snowy ground under him.
Hello, snowman!

YOUR TURN

My snowman

Draw it here, then color it in.
