

How to draw a Christmas star

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a shining star! First, a big star with five points.

Now a smaller star inside, right in the middle.

Now two little stars at the top right, one bigger, one tiny.

Now one little star lower on the right, and one at the bottom.

Now three sparkle lines above the left point, and three above the right.

Last, three sparkle lines on the left side. Twinkle, twinkle!
