

How to draw a Christmas stocking

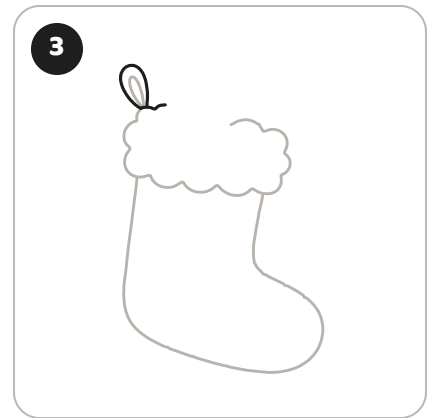

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a stocking! First, a fluffy cuff, bumpy all around.

Now the long sock under it, with a bendy foot at the bottom.

Now a loop at the top corner to hang it up.

Now three stripes across the leg, and a star in the middle.

Now a curve for the heel, and three curved lines on the toe.

Now a little present with a bow, peeking out of the cuff.

Now a ribbon bow next to it, with two loops and tails.

Last, a stripy candy cane sticking out. Ready for Santa!

YOUR TURN

My Christmas stocking

Draw it here, then color it in.
