

How to draw a Christmas tree

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a Christmas tree! First, a star right at the top.

Now the top of the tree, with a wavy bottom like a skirt.

Now two more wavy layers under it, each one a bit wider.

Now the biggest layer at the bottom, left side then right side.

Now round ornaments on every layer. How many can you fit?

Last, a little trunk and a pot. What a beautiful tree!
