

How to draw a Christmas tree

One step at a time: the black lines are new, the gray ones you drew already.

Let's draw a Christmas tree! First, a star right at the top.

Now the top of the tree, with a wavy bottom like a skirt.

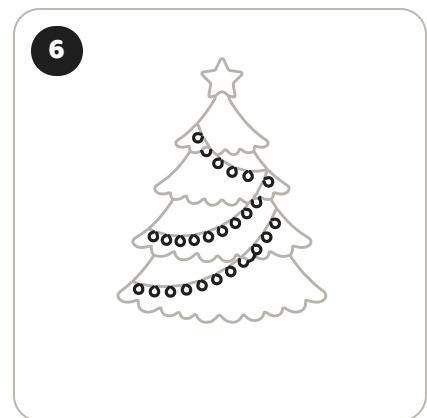

Now the second layer, a bit wider, with a wavy bottom too.

Now two more layers, each one bigger. Wavy bottoms again!

Now three strings of lights, swooping across the tree like big smiles.

Now a little round bulb hanging all along each string of lights.

Now hanging ornaments with tiny hooks, one or two on each layer.

Last, a trunk and a pot to stand in. What a sparkly tree!
